Doubled Protection When You Need it Most

Policy provides double the amount of the ance through the years when the need

for protection is greatest.

Additional insurance equal to the face amount of the original policy is granted by means of a special dividend option, whereby a portion of the dividend is used for this purpose. In later life the additional insurance gradually decreases until at age of 65, when family responsibilities have lessened, it terminates, beginn the property of the proper responsibilities have tessened, it terminates, leaving the original policy as provision for one's own later years—thus serving the great two-fold purpose of insurance, protection of home and provision for self.

The New Enhanced Protection Series embraces four main plans carrying all modern privileges in addition to the Double Protection feature.

Be sure to ask one of our represent particulars fitting your individual case.

WITH 77 OF THE BRIGHTEST STARS IN HOLLYWOOD'S HEAVEN

Sincetheir first startling introduction of Vitaphane Warner Bros. have gradually massed wonder upon wonder—the first all stalk-ingpicture, the first stinging and dancing picture, the first stalking color film, and finally the first all-color picture—until it seemed that talking picture progress had surely reached its peak.

But now suddenly at a single stride Vitaphone comes forward with an achievement so immeasurably superior to any that have gone before, that the history of scene development must be completely rewritten and revised.

"THE SHOW OF SHOWS" is a connoisseur's collection of the supreme examples of almost every form of stage and screen entertainment, each elaborated beyond the wildest dreams of Broadway or Hollywood.

Only such popularity as Vitaphone has attained could provide the resources for assembling the names of John Barrymore, Richard Barthelmess, Beatrice Lillle, Ted Lewis, Georges Carpentier, Irene Bordoni, Dolores Costello, and enough more for 20 average pictures, all on one prodigious program.

And you'll remember as long as you live such sensational features as the Military Number with 200 lovely girls and a bugle and drum corps of fifty in intricate dance formations on a mammoth stainway—the Floradora Sextet composed of headline screen stars—the Sister Number with eight sets of celebrated screen-star sisters—the stupendous Lady Luck finale with a chorus of 300 and fifteen specialty "acts"—the Star Curtain on which all the famous favorites in the east appear simultaneously, framed in one vast fabric!

If you could see only one motion picture this season, that picture should be "The Show of Shows". Don't dare miss it—for you may never look upon its like again!

Announcing the NEW CHRYSLER SIX

The Lowest-Priced six ever to bear the Chrysler name

Chrysler today introduces a brandnew Chrysler Six - priced from \$1005 to \$1070-the lowest-priced six ever to bear the Chrysler name.

Here is Chrysler engineering-with such progressive developments as internal-expanding 4-wheel hydraulie brakes; 62-horsepower highcompression engine mounted on rubber; Iso-therm pistons; fuel pump instead of a vacuum tank; low-swung chassis; special-type spring shackles and hydraulic shock absorbers; small base wheels with large balloon tires; and typically Chrysler-styled allmetal bodies of new design and rigid construction.

Here is Chrysler craftsmanship-that precision craftsmanship characteristic of Chrysler Standardized Quality.

Here is Chrysler performance-all of that snap, speed, smoothness and stamina for which Chrysler has been famous ever since its beginning. Inspection, trial and comparison inevitably lead to the one positive conclusion that by all current measurements of performance, smartness, comfort, safety, economy and quality, the new Chrysler Six takes its place as the greatest sixcylinder value in the world.

We are eager to place a new Chrysler Six at your disposal—today.

HUDSON

The wide, new interest in 8-cylinder cars is another tribute to Hudson leadership. For it sweeps aside the barrier of high premium on eight-cylinder quality. It establishes in this field a new scale of low ownership costs—in price. in operation and in maintenance. It is ruggedly built for long-lasting reliability.

That is why you find thousands of former "Six owners enjoying its distinction and brilliant performance with better economy than they ever knew. It is why long-time ciplucylinder buyers tre turning in great number, to the advantages of Hudson's exclusive new type.

It is why this trend, which you see, soward "Eights", is really the public acclaim of Hudson's Great-8.

This car stands at the pinnacle of Hudson's record of value-giving. Any comparison you choose to make must emphasize that impression. Its advantages of fine appearance, quality and

In entering the 1930 market, Dodge Brothers were keenly conscious of two fundamental facts: First, that this year more than ever, value will be the basis of sales. Second, that the public is today better qualified than ever to judge value.

Dodge engineers met these conditions by designing two new cars with features that not only satisfy the demands of a thrifty and motor-wise public, but set the standard of values far ahead of any previous conception. These engineers have achieved:

ANew and Better Shave by Gillette

A new Blade A new Razor

THE GREATEST SHAVING IMPROVEMENT IN 28 YEARS

MILLIONS of well-worn Gillettes are now going Mt to win an honorable discharge. Sure — they're good old razors! And if you have to wait for your dealer to get his supply of the New Gillette Razor, your old Gillette will operate with the new blades.

What have we done to the Gillette Razor and the Gillette Blade? Not just one thing, or two things or three. We have made a dozen important

Take "razor pull," for example. Our laboratories examined tens of thousands of used razors; our engineers talked to twenty-seven thousand hard-to-

What did they find? A razor "pulls" because its working parts have been dropped and dented on floor or wash basin.

floor or wash basin.

Perhaps the dent is microscopic. Just the same it makes a difference. When you handle a Gillette, you are dealing with a fine precision tool. Even the smallest dent can throw it out of alignment. Hence "paul." Now look at the corners of the new razor. See those heavy lugs? You can't dent those corners by any ordinary accident. But suppose, by some territic abuse, you whould dent them. Never mind. The ends of the blade have been cut out. The blade is no louger held at the corners. Therefore, a dent-drazor-corner can't possibly affect the smoothness of your shave.

Another thing. The new blades are processed to resist rust. Think what that means in convenience and time saving. No more do you have to take the razor apart to wipe the blade. No more cut towels.

THE MARCH WIND

Windy March

For "tis an ill wind" we all know That does not somehow good things blow. And when March's blowing is all done, The clouds will part and show the sun.

Then gentler winds of March will play Upon the sun kissed hills all day, And boys and girls need have no fear To venture out for Spring is here.
